THE WILLIAM B. GREENE, JR. SCHOOL OF
BUSINESS & TECHNOLOGY
GRADUATE & PROFESSIONAL STUDIES PROGRAMS

MILLIGAN
Our business and technology students want to make a difference. Whether they assume leadership roles or work behind the scenes, our approach ensures that our graduates are prepared with technical skills required for solving complex problems, as well as the ability to think critically about their role in being a positive influence in the workplace. We do all this from a foundation of sound ethical, moral, and Christian principles.

SUCCESSFUL GRADUATES
Our graduates are leaders in their fields, working for CPA firms, banks, financial service companies, healthcare organizations, and a variety of other companies, including some among the Fortune 500. Others are working in non-profit organizations and churches, and many pursue graduate school.

EXPERIENCED FACULTY
You’ll learn from experienced and caring faculty, analyzing real-life case studies, doing Internet research, and applying information immediately. Teaching you is more than a job to our faculty — it’s a mission.

AFFORDABLE & REPUTABLE
Tuition for the programs is one of the most economical in our region, and financial aid is available. Milligan is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor’s, master’s, and doctoral degrees.

CHRISTIAN COLLEGE
Milligan is a Christian liberal arts college that encourages our students to be servant-leaders. Because of our emphasis on scholarship, community, and faith, students come from all over the world to experience our distinctively different approach to higher education.
