

MUSIC AT MILLIGAN

The music program at Milligan produces life-long learners and lovers of music, as well as accomplished performers. The program's faculty consists of knowledgeable and experienced musicians who also are dedicated and caring educators whose focus is helping students achieve their musical goals.

Students can pursue music in a variety of degree programs or simply elect music courses to enrich their liberal arts education.

PERFORMANCE

Students perform and tour with numerous ensembles, orchestras, and choirs and present an exciting array of recitals and concerts each year. They present world premieres and perform with internationally-renowned composers and musicians in addition to collaborating with regional symphonies and participating in professional field work experiences such as at the Contemporary Music Center in Nashville.

ENSEMBLES

- CONCERT CHOIR
