

**Steps for Authorizing Students to Register and Approving Student Schedules (Self-Service)**

**Authorization**

**Register**

Authorize advisees to register:

- “Advising”
- “Authorize Registration”
- “My Advisees”
- Enter the student’s name in the search box. (Student’s name and ID will appear with a status of “Unauthorized” displaying.)
  - If you would rather see a list of your advisees, leave the search box blank and choose “Advanced Search.” On the next screen, select the current semester as the period without entering any other information and click “Search” at the bottom of the screen. (You can also leave “period” blank and select “Retrieve All,” but this option might bring up a list that includes advisees from previous semesters.)
- Select the year/term/session in the “Period” box. (Traditional semester classes are in session 01. Only seminary faculty with MAR or MDiv advisees taking an MACM class should select session 04. Session 06 is for MSOT students enrolling in OT 791A field work. To authorize students for May term classes or for traditional summer classes, repeat the process for May term and for summer sessions 01, 02, and 03. Summer session 11 is for students enrolling in ADCP business courses, which are also open to traditional undergraduate students.)
- Click the check box next to the student’s name.
- Select the “Authorize” icon above the student’s name (head/shoulders with check mark).
- Status will change from “Unauthorized” to “Authorized.”
