COVID-19 DECISION TREE

SYMPTOMS

- NO SYMPTOMS

- POSITIVE
  - Isolate for at least 10 days since symptom onset AND at least 24 hours with no fever
  - Follow isolation protocols
  - Cooperate with contact tracing process
  - Students: Contact Health Services, professors, and athletic trainers
  - Faculty and staff: Contact Health Services, supervisor/VP, and your doctor if needed
  - Do not return to class or work until you receive clearance from Milligan Health Services
  - If tested elsewhere, report positive test ASAP to www.milligan.edu/health

- NO EXPOSURE

- EXPOSURE (CLOSE CONTACT)

- NEGATIVE
  - Return to class or work after a negative PCR test AND more than 24 hrs fever-free and improving symptoms
  - Quarantine* period is 10 days as long as no symptoms have been experienced at any point during the quarantine period. If symptoms occur, quarantine may be extended to 14 days. If quarantine ends after 10 days, there may be restrictions on extracurricular activities, athletic participation, and group functions for four additional days.
  - Do not return to class or work until you receive clearance from Milligan Health Services from ALL quarantine periods

- POSITIVE

- RESEARCH FULL PROTOCOLS AT WWW.MILLIGAN.EDU/HEALTH

CLOSE CONTACT: within 6 feet of an infected person for a cumulative total of 15 minutes or more over 24-hour period

*EXCEPTIONS: A close contact meeting the following criteria need not quarantine:
  - Diagnosed with COVID-19 within 90 days of exposure AND has recovered AND remains without symptoms of COVID-19
  - Asymptomatic health science students, health care personnel, first responders, or other individuals who encounter people with COVID-19 as part of their professional or caregiving duties while wearing appropriate PPE

VACCINE: CDC quarantine guidance still applies to individuals who have completed one or two doses of COVID-19 vaccine
