Medical Care/Preserving Evidence

Victims of sexual assault are encouraged to seek medical attention as early as possible after an assault occurs. By seeking medical attention, victims can receive medical care as needed and preserve evidence by undergoing a medical exam. Preserving evidence is important in cases of sexual assault and may prove that a criminal offense occurred and may be helpful in preserving orders of protection, if the victim chooses to pursue further action after the assault. Victims are encouraged to seek medical care at the Johnson City Medical Center, 400 N State of Franklin Rd, Johnson City, TN 37604.

Supportive Measures

Supportive measures are non-disciplinary, non-punitive individualized services which are designed to restore or preserve equal access to the University’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the University’s educational environment, or deter sexual harassment.

Supportive measures are offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed.

Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures when such measures are reasonably available.

Supportive measures are maintained as confidential by the University to the extent that maintaining such confidentiality would not impair the ability of the University to provide the supportive measures.

Responding to this initial contact is not required and meeting with the Coordinator does not mean further action has to be taken. In this initial assessment meeting, the Title IX Coordinator will explain rights, reporting options and resources, including information about supportive measures, counseling services, local advocacy organizations and how and to whom to make a report, if a reported is wanted.

2. After the initial assessment meeting, a formal complaint will be made by either the victim or the Title IX Coordinator in cases in which an ongoing threat to campus is identified.

3. Formal complaints meeting the parameters of the Title IX Sexual Harassment Policy will be addressed through the Title IX Grievance Process below. All other complaints will be addressed through the appropriate student or employee conduct processes.

4. A notice of allegations is made to the respondent (reported perpetrator)

5. An investigation is conducted, including evidence gathering, evidence review by parties, investigation report and second review by parties

6. A hearing will be conducted by a decision maker(s), including cross examination of the complainant, respondent, and witnesses conducted by each parties’ advisors

7. A determination of responsibility will be made by the decision maker, including a finding of responsible or not responsible of a policy violation and sanctions imposed on the respondent and remedies available to the complainant when a determination of a policy violation is made

8. An appeal of the determination of responsibility may be made by either party if the reason for appeal meets policy parameters for appeal

In addition to the formal grievance process, the option to pursue an informal resolution is possible if both parties and the Title IX Coordinator agree to pursue informal resolution.
