Policy for rescheduling final exams

The general policy is that students may not reschedule final exams; however, if a student has 3 exams scheduled on the same day, then he or she may request permission to reschedule one exam for a later date. Any approval for exam rescheduling will be by the agreement of the instructor and the Vice President for Academic Affairs and Dean. The student should submit a written request for rescheduling an exam to the Dean with faculty endorsement attending the request. The student will submit this request no later than two weeks prior to the last day of classes. The Dean's office will verify the student's exam schedule and will respond in writing to the student and the endorsing faculty member within 3 days of the request.

Evening classes

Classes meeting once per week with a start time of 5:30 p.m. or later will have the final examination during exam week on the day and at the time when the class normally meets. Once-per-week classes with a start time earlier than 5:30 p.m. should take the final exam with the class period that most closely matches the start time of the class.
